

The Impact of One Year at Moore Place

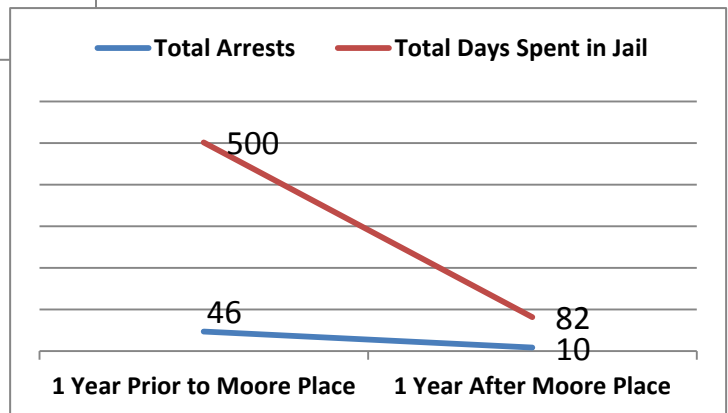

The Urban Ministry Center invited the 85 tenants of Moore Place to participate in a study to track the utilization of crisis services both prior to and after living in Moore Place. Of the 74 tenants who originally chose to participate, 62 remained at Moore Place after one year. For those 62 tenants, we compared their utilization of emergency rooms and resulting hospitalizations (CMC and Novant) and their utilization of jail one year prior to and one year after moving into Moore Place. Our findings are as follows:

447 Fewer ER Visits
(78% reduction) &
372 Fewer Days
Admitted to the
Hospital (79%
reduction)

\$1.8 Million Lower Total
Hospital Bill (70% Reduction)

36 Fewer Arrests (78%
reduction) & **418 Fewer**
Days Spent in Jail (84%
reduction)
